

# Supporting People

## Supporting People

### What is Supporting People?

Imagine you're a support worker and you have a client with Alcohol Dependency issues. You use the Supporting People App to define the Outcomes (or goals) they want to use to measure the progress over time and produce Web Charts.

### Who would use Supporting People?

Typical users are Social Workers, Housing Officers, Case Managers, NDIS co-ordinators. In fact anyone that needs to monitor and report on client outcomes.

### How do staff use Supporting People?

The Supporting People App can be used from a computer, tablet or mobile phone—whatever suits the member of staff and the work they are doing.

### Examples of Outcomes that customers monitor

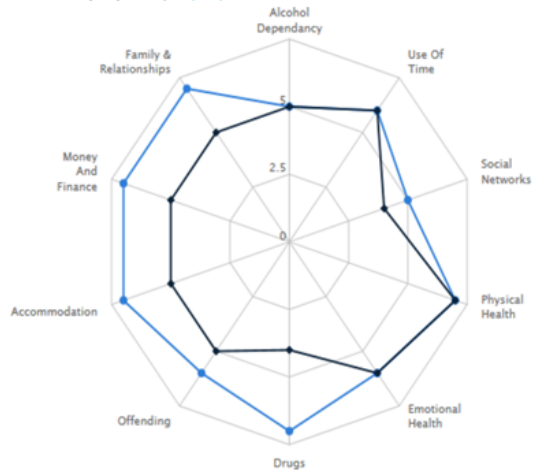

Social outcomes, Return to Work, Complex Tribunal Cases, NDIS service reviews and more.

### How is Supporting People priced?

Supporting People is priced per user. It is hosted securely in the Cloud and supports Offline working when staff don't have Internet access.

**Contact us for pricing for your organisation.**

Alcohol Dependency Outcome - Mr D Lamberton (LAM002)
